## Update on Infrastructure Policy Reform

June 18, 2019

## By: Kevin A. Ewing

The President's recent Executive Order on energy infrastructure directed new measures to improve EPA's program for state water quality certifications—often a serious impediment to energy infrastructure. Join us to learn about the (hotly anticipated) new guidance from EPA, viewed in the broader context of recent court decisions and changing agency practice concerning Clean Water Act Section 401.
